Assignment for Block chain Technology

Step 1: Go to the chrome and open remix platform.

Step 2: Open the remix page and create the new file.

Step 3: Write the program to get the string "Zone name" in the newly created file.

Code:

```
// SPDX-License-Identifier: MIT

pragma solidity 0.8.18;

contract Livingston

{

function livingston() external pure returns (string memory)

{

return "Zone Seventeen";

}

}
```

Step 4: Save the program and compile it to get the ABI and Byte code.

.

Byte code:

```
{
    "functionDebugData": {},
    "generatedSources": [],
    "linkReferences": {},
    "object":
```
